MOVE FOR WELDING™

25% 电流免费送; FREE 25% EXTRA POWER

直流焊接和交流辅助电同时使用；PERMANENT MAGNET
焊机结构紧凑，重量轻，体积小; COMPACT AND LIGHT
无刷/直接耦合/高效率; BRUSHLESS, DIRECT COUPLING;

3C认证产品

- DC Stick (SMAW)
- DC TIG (GTAW)
- DC MIG (GMAW)*

KOVO®

POWERED by YANMAR

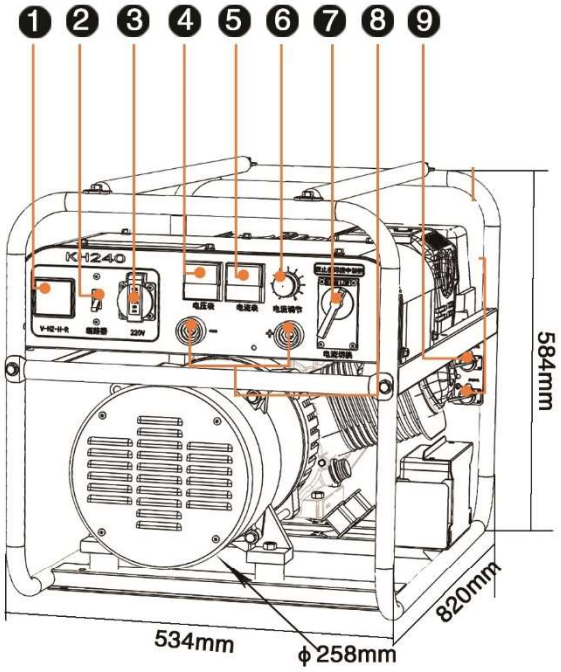
DIESEL ENGINE DRIVEN WELDER

EW200D

参数SPECIFICATIONS

直流焊机 DC Welder		
驱动 Driven	-	直接耦合 Direct Coupling
额定功率 Rated Output	KW	5.6
额定电流 Rated Current	A(DC)	170
额定电压 Rated Voltage	V(DC)	28.8
电流范围 Current Range	A(DC)	30-190
空载电压 OCV	V(DC)	75
转载率 Duty Cycle	%	60
类型 Type	-	整流型 Rectified DC output type
适用焊条 Applicable Electrode	mm	2.0-5.0
辅助电 Aux. Power		
额定功率 Rated Output	KW	3.0
额定电压 Rated Voltage	V(AC)	120/220/240
相数 Phase	-	单相 Single
功率因数 Power Factor	%	100
发动机 ENGINE		
型号 Model	-	YANMAR L100
类型 Type	-	四冲程空冷 4-stroke, air cooled
缸数 Cylinder arrangement	-	单缸 Single cylinder
排气量 Total displacement	cc	435
额定输出 Rated Output	KW	6.5
速度 Speed	rpm	3000
燃料 Fuel		柴油 Diesel
启动 Start System	-	手启或电启 Recoil or Electric
其他 OTHERS		
油箱容量 Fuel Tank Capacity	L	6.5
尺寸 Dimension (L×W×H)	mm	820x534x584
净重 Net Dry Mass	Kg	110

- Tailored voltage for different country standards
- Specifications and design are subject to change without notice



面板 A CLOSER LOOK OF PANEI

❶ 功能数字显示器；DIGITAL METER(V, Hz, HOUR);
❷ 电源断路器；POWER BREAKER;
❸ 插座输出；POWER RECEPTACLES;
❹ 焊接电压表；VOLT METER;
❺ 焊接电流表；AMP METER;
❻ 电流调节器；CURRENT CONTROL;
❼ 高低档开关；CURRENT RANGE(HIGH/LOW)
❽ 焊机端子； WELDING TERMINALS;
❾ 启动开关； START SW.

特点FEATURES

- 意大利进口Yanmar L100
  Imported Italy made Yanmar L100
- 直流焊机和交流永磁发电机同时使用，互不干扰。
  DC welder and AC generator used simultaneously
- 采用无绕组转子和无刷电机No windings rotor and brushless stator
- 适用于纤维素和低氢焊条全位置焊接，起弧容易，成型好
  Strong arc force for easy burning electrode;
- 极性转换方便，满足各种焊接工艺Polarity easy switched with DINSE type plug;
- 高开路电压输出75V，High OCV 75V
- 结实管架皮实耐用Robust engineering tube frame
