

SHOULDER STABILIZER AllInOne

The latest evolution of the MFT [Shoulder Stabilizer AllInOne](#) for professional applications in banket construction. Equipped with an integrated 4m³ cement spreader and 6m³ water tank, enabling efficient water injection directly into the mixing chamber and guarantees the best mixing quality. With an impressive mixing depth of 600 mm, offering maximum performance and flexibility on every construction site.

Spreading, injecting, mixing - one operation.

**ONE DRIVER
3 TASKS!**

Technical data — MFT SHL-AIO

Tank	6000 l	Spreader Mechanism	Side — swivel
High power water pump	1800 l/min	Dosing system	Aluminium
Binding agent container	5 m ³	Spreading / recycling width	800 mm
Filling interface	3"	Screw conveyor	Transversal
Vehicle	Mercedes-Benz Arocs 1848 RHD	Vehicle speed FG1	Hydrostatic, variable 0 — 12 km/h
Engine	OM471 6cyl 12.8l 480PS 2300NM	Unladen weight	15 t
