VTL-130-F

Chassis mounted
telescopic platform

Available for class B
driving licence

LMC controls with
variable outreach

3.5 t GVW

Class leading leftover
payload

1 kV certified low
voltage insulation

VERSALIFT

A **TIME** MANUFACTURING COMPANY

VTL-130-F Mercedes Sprinter

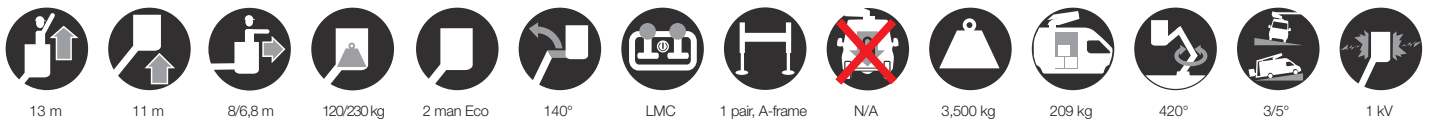

Light installation provides very good payload.

1 kV insulated according to VDE 0682-742 - Allows the operator to work on low voltage electric lines or installations in a safe way.

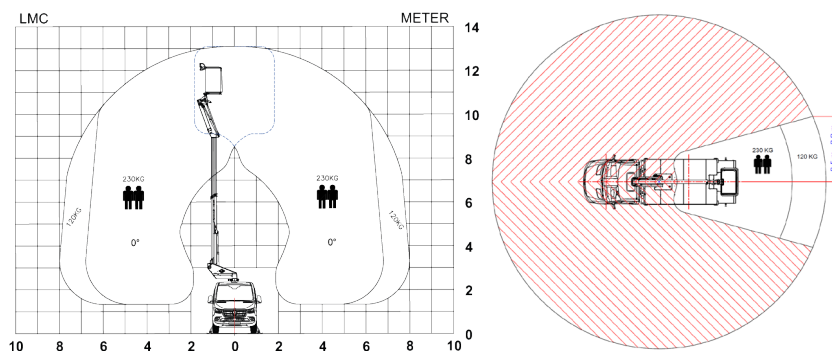

SmartBox toolboxes - Lightweight toolboxes constructed of strong sandwich material with isolating foam core to keep goods dry and safe. There are 4 roller shutters to enable access from both sides.

A Lithium battery pack can be installed as the lifts power supply. Recharging is done by driving or by plugging in to a 230V wall socket

■ Length: 6,930 mm ■ Height: 3,200 mm ■ Wheelbase: 3,665 mm
