

INSPECTION REPORT

HAMM HD12VV

The Hamm HD12VV is a high-performance vibrating roller equipped with a Kubota D1503 engine, delivering 22.9kW of power. This 2017 model comes with a drum width of 1.20m and is designed for efficiency and safety. It features a water sprinkler system, drum drive, and both drums are capable of vibrating. Additional safety features include a backup alarm and a beacon. With genuine hours of operation and in very good, clean condition, this machine meets CE certification requirements and is perfect for construction sites demanding reliability and performance.
